Hazardous Material Management for Special Contract Requirements

Date:

Cardholder's Name:

Seller:

Item(s):

All purchased parts, components and purchased goods shall comply with the following:

The part/component/purchased goods shall not use materials designated as Class I Ozone-Depleting Substances (ODSs) in the manufacturing process. This includes all components.

The design shall identify, justify, minimize and/or eliminate requirements for the usage of Class II ODSs or the Emergency Planning & Community Right to Know Act (EPCRA) Section 313 Chemical.

All other hazardous materials used on or in the manufacturing process shall be minimized.

Please mark the one that applies:

The purchased part/component/purchased goods meet the above requirements.

The purchased part/component/purchased goods do not meet the above requirements. The purchase shall not be completed.

Completed form shall be forwarded to the appropriate EH&S Program Representative.
