

CODE 2
COMPANY SOURCE INSPECTION

Buyer inspection(s) of the articles or services purchased hereunder will be required prior to shipment from your plant. Inspection will be performed as designated by the Buyer and may be conducted during processing, fabrication, or as a final inspection.

To accomplish source inspection as required by the order, the Buyer's Source Inspection representative will use a Company furnished pre-planned document entitled:

- "Procured Product Acceptance Requirements" (PPAR) or
- "Procurement Inspection Plan" (PIP), or
- "Supplier Technical Requirements" (STR)

The Buyer will furnish the PPAR, PIP or STR to the Seller. (The following product features constitute the need for establishing Buyers inspection points; e.g., prior to plating, assembly, or before commencement of functional testing).

When articles or services are ready for interim or final inspection, call the Buyer's Source Inspection office at (818) 586-2790 to schedule the required inspection service and provide the buyer the following information.

1. Part Number
2. Purchase Order number (last eight digits)
3. Type of inspection (interim or final)
4. Buyer's PPAR, PIP or STR revision

When the buyer's source representative arrives, Suppliers are required to provide the Buyer's source representative the following:

- A copy of the related purchase order, applicable drawings, specifications, and changes thereto, related inspection and/or test equipment, and such other information as may be required to satisfactorily perform the quality assurance function required under this order.

Rocketdyne reserves the right to waive inspection on all shipments. The intent to waive inspection shall be documented in writing from the Buyer, Quality Management and will be included with all shipments.

Interim and final inspection points, designated by Code 2, shall be included on Seller's manufacturing and/or inspection instructions.

At the completion of the inspection, the Seller shall ensure that the PPAR, PIP or STR document be included with the parts to the designated shipment destination. All other Data requirements shall be complied with.
