EXPORT CONTROL NOTICE

Seller shall presume that all drawings, specifications and other technical data or goods provided by Buyer to Seller contain information subject to Export Control laws, whether or not specifically identified or marked as such by Buyer. Seller shall not disclose (oral, visual, written or otherwise) or provide such drawings, specifications and other technical data or goods to any foreign person (including but not limited to Seller's employees, Seller's subcontractor's, etc) or foreign firm or institution, without first obtaining prior authorization from the United States Department of State, and notifying Buyer in advance of its intentions to do so.

A "foreign firm or institution" means those organized or existing under the laws of a country other than the United States, its territories, or possessions. The term includes any agency or instrumentality of a foreign government, and firms, institutions or business organizations that are owned or substantially controlled by foreign governments, firms, institutions or individuals. A "foreign person" does not include United States citizens and corporations and permanent resident aliens of the United States unless such individuals are representatives of a foreign interest.

Seller shall include this clause in all its purchase contracts and solicitations.
