

**Q201     Government Source Inspection Requirements (NASA contracts – Station Program)**

Government inspection is required prior to shipment from your plant. Upon receipt of this Purchase Contract promptly notify the Government representative who normally services your plant for Government contracts so that appropriate inspection planning by the Government representative can be accomplished. In the event that your facility is not serviced by Government inspection, and the area Government inspection representative or agency cannot be located, notify Buyer's Materiel Department immediately.

All work on this subject to inspection and test at any time and any place, and the level of Government inspections performed will be as determined by the cognizant Government inspection representative and may be conducted during processing, fabrication, or as a final inspection. When there is no Government representatives in residence at your facility, the Government representative or agency shall be notified in advance of when articles, processes, or services will be ready for required inspection and/or test.

Seller shall make available to the Government representative all applicable drawings, specifications, and changes thereto, related inspection and/or test equipment, and such other information as may be required to satisfactorily perform the inspections and tests required under this Purchase Contract.
