5. Prime Contract Special Provisions. The following prime contract special provisions apply to this contract:

A. Technical Information Releases and Publications. {Prime contract H.4}

1. As authorized by paragraph (d)(1) of the Rights in Data—General Clause of this contract, the following exception shall apply:

During the performance of this contract, if data relating to this contract is planned for use in oral or written presentations, professional meetings, seminars, or in articles to be published in professional, scientific, and technical journals and similar media, Seller shall assure that an advance information copy of the presentation or article is sent to the Space Station Program Office (SSPO) to have the benefit of advance information concerning accomplishments of interest, and will provide the SSPO an opportunity to make suggestions to Seller concerning revisions if it is considered that such comments might be useful to Seller to help ensure the technical accuracy of the information to be presented or published. The information copy will be forwarded to the technical monitor of the contract at least four weeks in advance of the date the author intends to give the presentation or submit the article for publication.

2. The advance information copy may be submitted in the format or medium to be utilized in its ultimate release.

3. Nothing in this clause waives any requirement in the General Provisions PUBLICITY article.

B. Pricing of Common Items to International Partners. {Prime contract H.6} This clause does not apply to commercial items, as that term is defined in FAR 2.101, or to items whose price is set by law or regulation.

1. The Government has entered into agreements with International Partners (IP) which contemplate that certain space station “common items,” previously intended to be procured by NASA, will now be acquired directly by the contractors of these organizations from the United States development contractor. These agreements provide, among other things, that NASA will take the necessary contractual steps to enable that common items can be procured by IP contractors for Space Station use, and to ensure that the recurring cost to such contractors consistent with the cost basis paid by NASA.

2. In order to carry out the intent of the above, Seller agrees as follows:

(a) If Seller is requested by an IP contractor to submit a proposal for any item being supplied under this contract, Seller agrees to estimate such items to such contractor consistent with the unit price or recurring costs estimated

for such items in this contract; provided, however, that if there are differences in the circumstances under which the items are being priced to the contractor (e.g., greater or lesser quantities, configuration changes, alternative business relationships, variances in schedule requirements, break in production, actual price experience, etc.), Seller's estimate of the items may vary to the extent of such different circumstances.

- (b) Each proposal provided to an IP contractor shall include a reference to the unit price or recurring costs estimated for such items in this contract as well as an explanation of any differences.
 - (c) Seller agrees to negotiate in good faith with any IP contractors desiring to buy items supplied under this contract, and to do so in a manner consistent with the terms of this clause.
3. Seller will flow this clause to lower-tier subcontracts to the extent practical and possible, except as noted below. This clause has no application to (1) contracts entered into prior to the effective date of this contract, (2) commercial items, as that term is defined in FAR 2.101, (3) items whose price is set by law or regulation, (4) non-deliverable tooling, non-deliverable shop aides, similar non-deliverable equipment, and similar non-deliverable software or (5) non-deliverable items consumed in the manufacturing process.

C. JSC Hazardous Materials Use. {Prime contract H.39} This clause applies to contracts under which hazardous materials will be utilized, or may reasonably be expected to be utilized, onsite at Johnson Space Center (JSC).

- 1. This clause is JSC-unique, and the requirements are in addition to any U.S. Environmental Protection Agency, U.S. Occupational Safety and Health Administration, or other state or federal regulation or statute. Therefore, the following requirements do NOT supercede any statutory or regulatory requirements for any entity subject to this clause.
- 2. "Hazardous materials," for the purposes of this clause, consist of the following:
 - (a) Those materials defined as "highly hazardous chemicals" in the Occupational Safety and Health Administration Process Safety Management Regulation, 29 C.F.R. 1910.119, without regard to quantity.
 - (b) Those "extremely hazardous substances" subject to the emergency planning requirements in the Environmental Protection Agency Emergency Planning and Community Right-to-Know Regulation, 40 C.F.R. Part 355, without regard for quantity.
 - (c) Those "hazardous substances" subject to the release notification requirements under Environmental Protection Agency Emergency Planning and Community Right-to-Know Regulation, 40 C.F.R. 302.4, without regard for quantity.
 - (d) Any radioisotope material or device that produces ionizing radiation.

- (e) Any Class II, III, or IV laser as defined by the American National Standards Institute No. Z136.1 (1986)
 - (f) Any explosive or any pyrotechnics.
 - (g) Any pesticide.
3. Seller shall develop and maintain an inventory list of the identity and quantity of hazardous materials stored or used onsite at JSC for the performance of this contract.
 4. Seller shall ensure that the proper training of its employees in the use and inherent hazards of these materials is accomplished prior to use.
 5. Seller shall notify the JSC Occupational Health and Test Support Office (SD13) prior to any initial use or different application of these materials.
 6. Seller shall use all hazardous materials properly and take all necessary precautions to ensure no harm is done to humans or the environment.
 7. Seller shall insert the substance of this clause, including this paragraph 7, with appropriate changes of designations of the parties, in subcontracts under which hazardous materials will be utilized, or may reasonably be expected to be utilized, onsite at JSC.
 8. In the event Seller fails or refuses to comply with any aspect of this clause, such failure or refusal may be considered a material breach of this contract.

D. System Administrator Security Certification Program. {Prime contract H.41 }

In addition to any other requirements of this contract, all individuals, contractors or subcontractors who perform tasks as a system administrator or have authority to perform tasks normally performed by system administrator shall be required to demonstrate knowledge appropriate to those tasks. This demonstration, referred to as the NASA System Administrator Security Certification, is a two-tier assessment to verify that system administrators are able to –

1. Demonstrate knowledge in system administration for the operating systems for which they have responsibility.
2. Demonstrate knowledge in the understanding and application of network and Internet security.

Certification is granted upon achieving a score above the certification level on both an operating system test and the network and Internet security test. The certification earned under this process will be valid for three years. The NASA Chief Information Officer has established the criteria for this skills assessment. The objectives and procedures for this certification can be obtained by contacting the IT Security Awareness and Training Center at (216) 433-2063.

System administrators are those who provide IT services, network services, files storage, web services, etc., to persons other than themselves and take or

assume the responsibility for the security and administrative controls of such services or machines. Lead system administrators have responsibility for information technology security (ITS) for multiple computers or network devices represented within a system; ensuring all devices assigned to them are kept in a secure configuration (patched/mitigated); and ensuring that all other system administrators under their lead understand and perform ITS duties. Individuals that have full access or arbitrate rights on a system or machine that is only servicing themselves does not constitute a “system administrator” since they are only providing or accepting responsibility for their system. Individuals only servicing themselves are not required to obtain a System Administrator Certification.

E. (Limited) Release of Contractor Confidential Business Information (CBI).
{Prime contract H.42}

1. NASA may find it necessary to release information submitted by Seller pursuant to the provisions of this contract, to individuals not employed by NASA. Business information that would ordinarily be entitled to confidential treatment may be included in the information released to these individuals. Accordingly, by signature on this contract, Seller hereby consents to a limited release of its confidential business information (CBI).
2. Possible circumstances where NASA may release Seller’s CBI include the following:
 - (a) To other NASA contractors and subcontractors and their employees tasked with assisting NASA in handling and processing information and documents in the administration of NASA contracts, such as providing post-award audit support and specialized technical support to NASA.
 - (b) To NASA contractors and subcontractors and their employees engaged in information systems analysis, development, operation, and maintenance, including performing data processing and management functions for NASA.
3. NASA recognizes its obligation to protect Seller from competitive harm that could result from the release of such information to a competitor. Except where otherwise provided by law, NASA will permit the limited release of CBI under subparagraphs 2(a) or 2(b) only pursuant to non-disclosure agreements signed by the assisting contractor or subcontractor and their individual employees who may require access to the CBI to perform the assisting contract.
4. NASA’s responsibilities under the Freedom of Information Act are not affected by this clause.

5. Seller agrees to include this clause, including this paragraph 5, in all subcontracts at all levels awarded pursuant to this contract that require the furnishing of CBI by the subcontractor.

F. Access to Contractor Data. {Prime contract H.43} This article applies to all cost-type subcontracts valued at \$1,000,000 or more; however, the flowdown requirement applies to all subcontracts.

1. For purposes of this clause, “Data” means recorded information, regardless of the form or media on which it may be recorded by Seller or its subcontractors. The term includes technical data, computer software and information incidental to contract performance. Types of data contained in the definition also include the results of Seller internal audits of any discipline, procedures, system, or task which directly or indirectly supports the performance of this contract as well as data from any audit of subcontractors performing under this contract. The term is limited to data that is archived as a normal part of Seller’s performance.
2. The Contracting Officer or designee shall, through closeout, have access to and the right to examine any of the data produced or specifically used in the performance of this contract. The purpose of this access provision is to permit sampling of Seller data to verify requirements compliance and continuous improvement without unduly increasing the number of data deliverables to this contract.
3. Seller shall make available at all reasonable times for Government inspection the most current data produced or used in the performance of this contract for examination.
4. Notwithstanding the Additional Data Requirements clause, the Government shall have the right to reproduce any data found during the examination that it wishes to retain. The Government or Buyer will reimburse reproduction costs only when it uses Seller equipment for the reproduction. The Government shall retain no greater rights in the reproduced data than it would have under the Rights in Data–General clause.
5. Seller shall flow this clause to all cost-type subcontracts valued at \$1,000,000 or more.

G. Government Insight. {Prime contract H.44} This article applies to all cost-type subcontracts valued at \$1,000,000 or more.

1. Definitions. For the purpose of this contract, the following definitions apply:
“Insight” means technical visibility into the program, maintained through audit, surveillance, assessment of trends and metrics, software independent verification and validation, the flight readiness review process, and review or independent assessment of out-of-family anomalies occurring in any phase of the program.

“Surveillance” means continual monitoring and verification of the status of manufacturing, testing, and processing of Space Station hardware, software and operations preparations to ensure that requirements are being fulfilled. Items to be monitored and verified are selected—this is not an all-inclusive activity.

“Audit” means the implementation of procedures and requirements of the NASA Engineering Quality Audit (NEQA) or other equivalent audit techniques used to perform periodic audit of all aspects of processes and procedures required to manufacture, assemble, test, and process hardware for flight. Audits may include an examination of all disciplines and tasks which are involved with or support Shuttle launch and landing operations, hardware and software production and maintenance, safety and quality assurance, logistics, procurements and operations. These descriptions are illustrative only and shall not be construed as any limitation on the Government’s right to conduct an audit of Buyer, Seller, and Seller’s subcontractors to determine performance on this contract.

2. The Government shall have the right to audit Seller and Seller’s cost-reimbursement subcontractors (with values exceeding \$1,000,000) to determine compliance with the requirements of this contract. One purpose of these audits is to afford the Government insight into and understanding of Seller and selected Seller subcontractor processes and procedures to determine whether the processes or procedures (1) adversely affect safety, (2) are not within contract performance standards or (3) adversely affect future launch schedules.
3. The Government or Buyer may schedule fact-finding meetings with Seller and Seller’s subcontractors as necessary to discuss issues requiring Government insight. Scheduling and format of these meetings shall indicate whether exchange of information will be required, and the number and expertise of Buyer, Seller, and Seller’s subcontractor personnel who shall attend the meetings. When requested by the Contracting Officer or designee, Seller and subcontractors shall provide necessary support to the Government when it audits the Seller or subcontractor and for the Government-Buyer-Seller-Seller’s subcontractor meetings. The purpose of these meetings is to understand the findings of the Government audits. The parties understand and agree that no direction from the Government or constructive change to the contract shall result from any of these meetings.

H. Government-Provided Russian Language And Logistics Services (RLLS).
{Prime contract H.46}

Seller is authorized to use the following RLLS in performance of this contract or any subcontract entered into under this contract:

1. Russian translations

2. Russian interpretations
3. Russian language training
4. Russian logistics services (both in the U.S. and in Russia), including (a) ground services (e.g., airport pickup/drop-off, transportation between hotels and meeting locations), (b) meeting services (e.g., coordination of schedules, agendas, and protocols), (c) hotel reservations at the Renaissance Hotel-Olympic Penta in Russia and (d) visa coordination.

The Contracting Officer shall be promptly notified by Seller, via the Buyer's Authorized Procurement Representative, upon identification of a need for RLLS. The Contracting Officer shall provide instructions as to the point of contact for submitting a request for RLLS. Failure of the Government to provide adequate or timely RLLS shall entitle Seller to an equitable adjustment in all affected contract terms and conditions, exclusive of any adjustment to profit or fee. This provision, including this flow-down requirement, shall be inserted in all subcontracts where it is anticipated that RLLS may be necessary for contract performance.

iii) The term "extraordinary payments" means payments in cash or in kind made or to be made by the United States Government prior to January 1, 2012, for work to be performed or services to be rendered prior to that date necessary to meet United States obligations under the Agreement Concerning Cooperation on the Civil International Space Station, with annex, signed at Washington January 29,

1998, and entered into force March 27, 2001, or any protocol, agreement, memorandum of understanding, or contract related thereto.

(b) This clause implements the Iran and Syria Nonproliferation Act (the Iran Nonproliferation Act as amended by the Iran Nonproliferation Amendments Act of 2005) to allow extraordinary payments prior to January 1, 2012 to Russian entities in connection with the International Space Station. NASA has applied the restrictions in the Act to include funding of Russian entities via U.S. contractors.

(c)(i) The Contractor shall not subcontract with Russian entities without first receiving written approval from the Contracting Officer. Any costs incurred under subcontracts with Russian entities shall be deemed an unallowable cost unless the contractor or subcontractor has obtained prior written approval from the Contracting Officer to enter into such subcontracts. They shall provide verifiable evidence that a valid export license, exemption or exception has been processed and approved (as applicable). They shall also provide this information for additional property that is not GFE or GFP that Seller or its subcontractors elect to include with the GFE and GFP.
- K. Human Space Flight Item.** {implements NASA FAR Supplement 1852.246-73 (MAR 1997)} FOR USE IN HUMAN SPACE FLIGHT; MATERIALS, MANUFACTURING, AND WORKMANSHIP OF HIGHEST QUALITY STANDARDS ARE ESSENTIAL TO ASTRONAUT SAFETY. IF YOU ARE ABLE TO SUPPLY THE DESIRED ITEM WITH A HIGHER QUALITY THAN THAT OF THE ITEMS SPECIFIED OR PROPOSED, YOU ARE REQUESTED TO BRING THIS FACT TO THE IMMEDIATE ATTENTION OF THE PURCHASER.
- L. Packaging, Handling, Storage and Transportation of Flight Hardware.**
This clause only applies to flight hardware. This clause does not apply to commercial items or commercial components, as those terms are defined at FAR 52.202-1, unless they have undergone modifications, screenings or tests

that are unique to items sold to NASA. In the event of a direct conflict between this clause and a Statement of Work or Supplier Data Requirements List requirement, the Statement of Work or Supplier Data Requirements List requirement shall govern.

1. Seller shall identify all special handling requirements associated with hardware, firmware, materials, devices, items, goods, and articles classified as flight hardware (or any similar designation of use in space or use on orbit, such as "ITEMS FOR SPACE FLIGHT USE") (hereinafter referred to as "Flight Items" or "Flight Hardware") purchased or leased on this contract. This identification shall be made on both the shipping document (or as an attachment to the shipping document) and on correlating packaging labels, placards, or large legible printed markings on the exterior of the packaging itself, designed to alert those handling, transporting, shipping, receiving, moving, stacking, un-stacking, storing or processing (hereinafter referred to as "Handling") the Flight Items after the Flight Items leave Seller's facility. If Seller does not have labels that meet the intent of this clause, Buyer will supply the required labels. Special handling requirements include, but are not limited to, the following considerations:
 - (a) Special handling instructions (where necessary to prevent damage or deterioration) such as hardware specific packaging/handling documentation or instructions to fork lift operators on how to lift the Flight Item without damaging the Flight Item, "Do not drop", or "this end up" arrows.

N. Security/Badging Requirements for Foreign National Visitors and Employees of Foreign Contractors. (JSC 52.204-91) (JAN 2006)

- (a) An employee of a domestic Johnson Space Center (JSC) contractor or its subcontractor who is not a U.S. citizen (foreign national) may not be admitted to the JSC site for purposes of performing work without special arrangements. In addition, all employees or representatives of a foreign JSC contractor/subcontractor may not be admitted to the JSC site without special arrangements. For employees as described above, advance notice must be given to the Security Office of the host installation [JSC or White Sands Test Facility (WSTF)] at least 3 weeks prior to the scheduled need for access to the site so that instructions on obtaining access may be provided. Contractors should be aware that approval for access to the site and issuance of a badge may take much longer than three weeks and sufficient lead time must be allowed to accommodate the approval process.

(b) All visit/badge requests for persons described in (a) above must be entered in the NASA Foreign National Management System (NFMMS) for acceptance, review, concurrence and approval purposes. When an authorized company official

requests a JSC or WSTF badge for site access, he/she is certifying that steps have been taken to ensure that its contractor or subcontractor employees, visitors, or representatives will not be given access to export-controlled or classified information for which they are not authorized. The authorized company officials shall serve as the contractor's representative(s) in certifying that all visit/badge request forms are processed in accordance with JSC and WSTF security and export control procedures.

No foreign national, representative, or resident alien contractor/subcontractor employee shall be granted access into JSC or WSTF until approved and processed through the NFMMS. Unescorted access will not be granted unless a favorable National Agency Check (NAC) has been completed by the JSC Security Office, and an approved NASA Foreign National Visitor Security/Technology Control Plan (STTCP), (previously called the Access Control Plan) has been submitted and approved.

(c) The contractor agrees that it will not employ for the performance of work onsite at the JSC or WSTF any individuals who are not legally authorized to work in the United States. If the JSC or WSTF Industrial Security Specialist or the contracting officer has reason to believe that any employee of the contractor may not be legally authorized to work in the United States and/or on the contract, the contractor may be required to furnish copies of Form I-9 (Employment Eligibility Verification), U.S. Department of Labor Application for Alien Employment Certification, and any other type of employment authorization document.

The contractor agrees to provide the information requested by the JSC or WSTF Security Office in order to comply with NASA policy directives and guidelines related to foreign visits to NASA facilities so that (1) the visitor/employee/representative may be allowed access to JSC or other NASA Centers for performance of this contract, (2) required investigations can be conducted, and (3) required annual or revalidation reports can be submitted to NASA Headquarters. All requested information must be submitted in a timely manner in accordance with instructions provided by JSC or any other Center to be visited.

O. IDENTIFICATION OF EMPLOYEES (JSC 52.242-92) (JAN 2006)

At all times while on Government property, the contractor, subcontractors, their employees and agents shall wear badges which will be issued by the NASA Badging & Visitor Control Office, located in Building 110 at the Johnson Space Center (JSC), or at the Main Gate at the White Sands Test Facility (WSTF). JSC employee and visitor badges will be issued only between the hours of 6:00 a.m. to 7:30 p.m., Monday through Friday, and 7:00 am to 4:00 pm on Saturday and Sunday. WSTF employee badges will be issued only between the hours of 8 a.m.

to 2 p.m., Monday through Friday. WSTF visitor badges will be issued on a 7-day a week, 24-hour a day basis. Resident aliens and foreign nationals/representatives shall be issued green foreign national badges.

Each individual who wears a badge shall be required to sign personally for the badge. The contractor shall be held accountable for issued badges and all other related items and must assure that they are returned to the NASA Badging & Visitor Control Offices upon completion of work under the contract in accordance with Security Management Directive (SMD) 500-15, "Security Termination Procedures." Failure to comply with the NASA contractor termination procedures upon completion of the work (e.g., return of badges, keys, CAA cards, clearance terminations, JSC Public Key Infrastructure (PKI)/special program deletions, etc.) may result in final payment being delayed.
